EDUCATION

Indiana University – Luddy School of Informatics, Computing and Engineering, Indianapolis, IN Expected Dec. 2027
Master of Science in Computer Science — GPA: 3.67

Indiana University – Luddy School of Informatics, Computing and Engineering, Bloomington, IN May 2025
Bachelor of Science in Informatics — GPA: 3.45/4.0, Dean's List | Cognate: Human-Centered Computing | Minor: Web Design

TECHNICAL SKILLS

Languages: Python, Java, C++, C#, SQL, JavaScript, HTML/CSS, PHP
Tools & Platforms: Git/GitHub, Figma, Tableau, Fusion 360
AI Tools: ChatGPT, Claude, Prompt Engineering
Certifications: Tableau Desktop Specialist (Jan. 2025), Technical Support Fundamentals (Sep. 2025)

PROJECTS

AI Visual Communication in Software Testing Individual Project, 2026
- Designed and delivered a presentation focused on using ChatGPT to generate visualizations of code execution flow and output across three distinct software test cases, using iterative prompt engineering to get accurate results
- Used Claude to consolidate test data into a supporting Excel dataset, applying AI tools hands-on across a full research-to-presentation workflow

Cloud9 — Vaping-Cessation Support Web App Capstone Team Project, 2025
- Built a full-stack web application that helps people track and support their journey to quit vaping
- Owned the real-time group post feature end-to-end in SQL, from HTML design through implementation
- Integrated the Google API so users could connect and personalize the app with their own Google account

SleepWell — Wearable Hardware + App Prototype Team Project, 2025
- Designed and 3D-printed a neck-brace hardware prototype that captures wearer data, simulating a working hardware-to-software product pipeline
- Contributed to UI/UX design of the companion mobile app prototype in Figma

Airport Resource Efficiency — Data Analysis & Visualization Individual Project, 2025
- Researched airport operations using credible public datasets and built an interactive Tableau story analyzing how airports allocate and utilize resources

WORK EXPERIENCE

Indiana University, Luddy School — Makerspace Lab Technician, Bloomington, IN Jan. 2022 – May 2025
- Maintained and troubleshot 4 categories of fabrication equipment (3D printers, laser cutters, vinyl cutters, soldering stations) across three campus makerspaces to minimize downtime
- Trained incoming lab technicians on safe operation and maintenance procedures across all machine types
- Provided hands-on technical support to IU students and staff on creative and fabrication technologies

Lavner Education — IT Intern / Instructor, St. Louis, MO June 2023 – Aug. 2023
- Taught 8 STEM curricula (coding, graphic design, robotics) to weekly camp groups of 3–10 students ages 7–12 over an 8-week summer program
- Partnered with directors and instructors on lesson planning and materials organization
- Supervised campers to maintain a safe, welcoming, and well-behaved camp environment

Goodwill — Retail Associate, Whitestown, IN Oct. 2025 – Present
- Operate a cash register and process customer transactions while maintaining a positive shopping experience
- Sort, clean, price, and organize donated merchandise, ensuring inventory quality and floor readiness
- Coordinate with staff to maintain store productivity and consistent customer service standards
