Work Experience

Primerica, Indianapolis, IN — August 2025 - September 2025
Financial Representative

- Connecting with users on LinkedIn to meet and talk about financial benefits
- Educating myself and others about the elements of financial status and how Primerica can increase those savings
- Communicating online with users and colleagues to create an inviting and inspiring environment

Indiana University, Luddy School, Bloomington, IN — January 2022 - May 2025
Makerspace Lab Technician

- Assisted Indiana University students and staff with creative technologies such as 3D printers, laser cutters, and more
- Performed maintenance on machines as needed for optimal performance
- Trained other technicians in different jobs and machines within three makerspaces

Lavner Education, St. Louis, MI — June 2023 - August 2023
IT Intern/Instructor

- Taught kids ages 7-12 every week in a variety of STEM related camps such as coding, graphic design and robotics
- Assisted Lavner directors and instructors with lesson plans and maintained optimal organization for materials
- Monitored campers to ensure they are well-behaved and feel welcome in a safe and secure environment

Team Projects

Capstone Project - Cloud9 — August 2024 - May 2025
2025 Student Choice Award Winner

- Selected students to form a team that would create a communication-focused project
- Worked with team to create various code, planning and design elements for the project, bringing forth new & creative ideas
- Met with the team regularly to stay on schedule and finish strong at the end of the year.

Wearable Technology Prototype — August 2023 - November 2023

- Designed a user interface with a team of students to help prevent harmful sleeping positions and sleeping habits
- Created a wearable 3D printed prototype neck band that wraps around the users neck, representing tracked data while asleep
- Prototyped a mobile app that shows connection to the neck band and displays recorded information to the user
